OneIQ

PEOPLE PROJECTS PROGRESS TOGETHER

CONNECTED WORK
& PEOPLE MANAGEMENT

# Bringing people, projects, and progress together.

OneIQ brings **projects, daily stand-ups, and people management** into one connected workspace — helping teams stay aligned, track progress, and make better decisions.

### Project Execution

Plan work, assign responsibilities, and track progress.

### People Operations

Manage attendance, employee records, and payroll workflows.

### Productivity Insights

Understand workloads, project progress, and what needs attention.

**Clear ownership. Fewer follow-ups. Better visibility.**

HOW ONEIQ WORKS

# From daily work to the bigger picture.

Projects, tasks, and people information often sit in separate tools. OneIQ connects them in one workspace, helping teams stay organized and giving managers better visibility into progress.

01 — WORK

## Plan & Execute

Projects, assigned tasks, owners, milestones, daily updates, and progress tracking.

*Know what's moving, what's blocked, and who owns the next step.*

02 — PEOPLE

## Manage Your People

Employee records, attendance, leave, working hours, and payroll workflows.

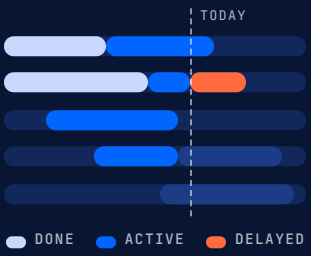

*Keep essential workforce processes organized in one place.*

03 — VISIBILITY

## See What Matters

See project progress, identify delays, understand team workloads, and know where management attention is needed.

*Spot bottlenecks early and make better-informed decisions.*

FOR STARTUPS · GROWING BUSINESSES · ENGINEERING TEAMS
